

# Chapter 1

## Introduction

Write a short introduction here...

### 1.1 Motivation

#### 1.1.1 Why variants ?

#### 1.1.2 Research questions

1. RQ1. To what extent can we artificially generate program variants for WebAssembly?
2. RQ2. To what extent are the generated variants dynamically different?
3. RQ3. To what extent do the artificial variants exhibit different execution times on Edge-Cloud platforms?

### 1.2 Contributions
